CAMPUS WATCH

It's your campus - Protect it!

A truly safe campus can only be achieved through the cooperation of students, faculty and staff. As a member of the Ross University School of Medicine community, it is your responsibility to report a crime, suspicious activity or other emergencies on campus to the appropriate campus official. Should you become a witness to or victim of a crime, immediately report the incident to local law enforcement officials, Campus Security, the Student Services Office, or to the Ross University School of Medicine Campus Dean. All crimes will be investigated and when appropriate, brought to the attention of the Student Services office for disciplinary hearings.

Purpose of the Annual Disclosure Report

Ross University School of Medicine prepares this report in compliance with DeVry's requirement for disclosure of Campus Security and Crime Statistics. The full text of this document can also be found on the www.rossmed.edu portal or by visiting your local Dean of Student Affairs office. This report was prepared with the assistance of local law enforcement agencies surrounding our campuses and centers. Campus crime, arrest and referral statistics include those that were reported to local law enforcement and campus faculty and staff. This data may also include crimes that have occurred in private residences or businesses adjacent to the campus or center.

REPORTING CRIMES AND EMERGENCIES

When making your report of an incident you will be asked to provide the following information:

1. Description of the incident
2. Date, time and location of the incident
3. Description of the persons or vehicles involved in the incident.
4. Detail regarding who was notified about this incident

Upon receipt of this report the school will determine the appropriate response, which could include disciplinary action against the offender(s), notification to local law enforcement, notification to the campus community or other public safety alternatives deemed appropriate given the circumstances. Please note that your identity may not be confidential when reporting an incident. The School does not have procedures for voluntary, confidential reporting of crimes.

Once each semester, Ross University School of Medicine will contact the Dominica police departments and property management to monitor and record crimes that occur

within the designated area around the campus that have been reported to the local Police.

All Emergencies –Dial: Campus Security – (767) 235-9111 or Local Police – 999

ANNUAL SECURITY REPORT

Ross University School of Medicine will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the SIREN notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The Chief of Safety & Security will determine if there is a significant emergency or dangerous situation and what segment of the campus community will need to receive a notification.

Ross University School of Medicine will:

- Test emergency response and evacuation procedures on an annual basis
- Document each test, including the date, time, and whether it was announced or unannounced
- Publicize emergency response and evacuation procedures in conjunction with at least one test per calendar year

SIREN EMERGENCY ALERT SYSTEM

In the event of an emergency or a potential threat to the campus arises, you will receive timely notification via the SIREN system, on campus flyers, and through email announcements. Please make sure to keep your contact information updated in SIREN through the student portal at MyRoss.edu.

CAMPUS ACCESS, FACILITY SECURITY AND LAW ENFORCEMENT

Ross University School of Medicine Campus

The Facilities department maintains the building and grounds with a concern for safety and security. Facilities staff inspect the facility regularly, promptly make repairs affecting safety and security hazards, and respond to reports of potential safety and security hazards such as broken windows, locks, etc. Students and staff can assist the Facilities staff by calling Work Control at: **(767) 275-5329, (767) 255 6534**. Additionally, the Facilities Manager routinely inspects the grounds and building to review lighting and other environmental concerns for safety.

Buildings in which campus administration, faculty and other student support services are located are generally open from 8:00 am to 4:00 pm Monday to Friday, while classrooms and other study spaces are generally opened up till 2:00 am daily with the exception of the library and Classroom #1 which is open on a twenty-four hour basis, except when closed for cleaning purposes or other special occasions. When the buildings are closed, they are locked and monitored by campus security.

Access to classrooms and laboratories is limited to those enrolled in the courses meeting there. Access to on- and off-campus activities is limited to actively enrolled students and their guests. Students are responsible for the behavior of their guests at all times at campus-arranged events. Ross University School of Medicine reserves the right to require that student identification cards be presented for admittance to certain locations and events. Ross University School of Medicine may also require students to register their guests with the Safety and Security Department prior to attendance. Student and staff identification cards should be worn at all times.

Campus security provides security coverage for campus property and the Ross Housing Units on a twenty-four hour basis Monday to Sunday, and for the Annex classroom throughout the period it is in use (Monday to Sunday from 7:00 am to 2:00 am). Security also provides coverage for the Princess Margaret Hospital library facility from 7:00 am to 11:00 pm Monday to Friday, and for the Princess Margaret Hospital classroom facility on a twenty-four hour basis Monday to Sunday. The uniformed officer must be called to respond to emergencies and can be contacted at: (767) 235-5387 or (767) 235-5911 for the Picard Campus; and (767) 440-5836 or (767)-448-7948 for the Princess Margaret Hospital facilities. The security officer has the authority to ask questions and request identification at any time. Criminal incidents will be referred to local law enforcement.

All crime victims and witnesses are strongly encouraged to report incidents to both campus security and local police. Prompt reporting will ensure timely warning notices to the campus community and timely disclosure of crime statistics.

Students living in off-campus student housing facilities should check with the apartment landlord for specific safety and security measures at their complex. Although most complexes provide keys for individuals and restrict access to apartments, the level of additional security varies from complex to complex. Crimes committed at off-campus housing should be immediately reported to campus security and the Police department with jurisdiction over the complex and as soon as reasonably possible to the Safety and Security Department.

ANNUAL NOTIFICATION OF STUDENT RIGHTS UNDER FERPA *(The Family Educational Rights and Privacy Act)*

DeVry Inc. and its divisions (DeVry University, Ross University, and Chamberlain College of Nursing) respect the rights and privacy of its students and acknowledge the responsibility to maintain confidentiality of personally identifiable information.

FERPA is a federal law that affords students the following rights with respect to their education records:

1. THE RIGHT TO INSPECT AND REVIEW THE STUDENT'S EDUCATION RECORDS

Students have the right to review their education records within 45 days of the day the institution receives their request. Students should submit to the registrar, dean, or head of the academic department written requests that identify the record(s) they wish to inspect. The institution official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the official to whom the request is submitted does not maintain the records, that official will advise the student of the correct official to whom the request should be addressed.

2. THE RIGHT TO SEEK AN AMENDMENT OF INACCURATE OR MISLEADING INFORMATION

Students may ask the institution to amend a record that they believe is inaccurate or misleading. They should write to the official responsible for the record, clearly identify the part of the record they believe should be changed and specify why it is inaccurate or misleading. If the institution decides not to amend the record as requested by the student, the student will be notified of the decision and advised of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when they are notified of the right to a

hearing. Following the hearing, if the institution still decides not to amend the record, the student has a right to place a clarifying statement in the record. The institution is not required to consider requests for amendment to grades or disciplinary decisions.

3. THE RIGHT TO LIMIT DISCLOSURE OF PERSONALLY IDENTIFIABLE INFORMATION

Students have the right to consent to disclosure of personally identifiable information contained in their educational records, except to the extent that FERPA authorizes disclosure without consent. An exception that permits disclosure without consent is disclosure to school officials who have legitimate educational interests, and the disclosure of directory information. Directory information is not considered to be harmful or an invasion of privacy if disclosed. See additional information on next page.
